

Reading and amending a pictogram

Have a look at the pictogram and answer the questions below.

Favourite meal for a group of 22 students.

1. How many students liked pasta best? _____
2. How many students chose pizza? _____
3. Which was the least popular meal? _____
4. Ten more said what their favourite meal was. Six liked Caribbean food the best, two liked curry and the others chose pasta. **Add this information to the diagram.**
5. How many students were asked altogether? _____
6. Now that more data has been added to the pictogram, has the least popular meal changed?
