Task One

1. Google
2. Electric
3. UK
4. Next year
5. To comply with safety laws

Task Two

1. When the surrounding cars are driver faster than it. This is a safety measure, driving slower that the surrounding cars has been shown to be dangerous.
2. The car has clocked up 700,00 miles of testing on open road in California.
3. Yes, they are electric cars so they are environmentally friendly.
4. No. The article does not state that Google's cars get any special exemption from the law on speeding. It is safe to assume the speeding law still applies to driverless cars.

Task Three

N/A
